## ENVIRONMENTAL & SUSTAINABILITY POLICY

---

Verotec's objective is to create a climate of excellence, not only in our products, services and quality, but also for our employees, clients and other people affected by our activities. As such, Verotec is fully committed to minimising the impact of its activities on the environment and uses ISO14001 as a framework to achieve this.

The key points of our policy are to:

- 🌱 Assess the effect of all future undertakings on the environment, reducing this effect to a minimum by adopting an environmentally friendly policy, including an appraisal of such effects when sourcing materials, and giving attention to materials supplied from re-cycled or sustainable sources.
- 🌱 Minimise all emissions and waste by evaluating operations and ensuring they are as efficient as possible.
- 🌱 Conserve all natural resources where possible.
- 🌱 Actively promote recycling both internally and amongst its customers and suppliers.
- 🌱 Be committed to a program of continual improvement to enhance environmental performance.
- 🌱 Be committed to the prevention of pollution and the protection of the environment.
- 🌱 Ensure that every member of staff is adequately trained in order that they perform with necessary consideration for the environment.
- 🌱 Assess and consider the environmental impact of any new developments within its processes.
- 🌱 Set and review environmental objectives and targets.
- 🌱 Comply with relevant legislation and regulatory standards.
- 🌱 Ensure that this policy is available to the public.
- 🌱 Ensure that all products, materials and services supplied by third parties can be used, handled, stored and disposed of, in a manner that safeguards the environment and health and safety of all where possible.
- 🌱 Undertake environmental audits, measuring results against established targets.
